PROFILE

Experienced Fullstack Developer with 2+ years of expertise in building and designing modern, scalable web applications. Proficient in front-end technologies like React, Next.js 14, and Tailwind CSS, and back-end development with Node.js and Firebase. Strong background in delivering responsive, user-centric interfaces and robust backend solutions across various industries, including e-commerce and e-learning.

PROFESSIONAL EXPERIENCE

Fullstack React - Next js / Node JS Freelancer

Freelance Work

08/2023 – present
Mahdia, Tunisia

- Led front-end development, converting 100% of Figma designs into pixel-perfect, responsive interfaces using Next.js 14, Tailwind CSS, and libraries like DaisyUI, RizzUI ensuring optimal performance across devices.
- Developed backend features with Nest.js, Firebase express, and medusa.js, including RESTful APIs, CRON jobs and real-time database.
- Implemented dynamic components using React, Next.js 14, TypeScript, and Redux Toolkit for store management, enhancing user experience and scalability while ensuring efficient data flow.
- Tested and maintained backend services, debugging and optimizing code for performance.
- Collaborated with multinational teams across Europe and the Middle East to deliver high-quality software solutions in diverse industries.
- Designed mockups and wireframes, ensuring alignment with project goals.

Tools: Next.js 14, TypeScript, Redux Toolkit, Tailwind CSS, Nest.js, firebase, postgres, Github, Gitlab, Scrumban, jira, figma.

React js Developer

Dot It

03/2023 – 08/2023
Sousse, Tunisia

- Transformed Adobe XD mockups into mobile-first, responsive interfaces using React ts/js, SASS and Material UI applying a pixel-perfect approach.
- Collaborated with a cross-functional team to develop new e-commerce features for brands like fnac.
- Debugged and optimized existing features to ensure smooth operations and minimize downtime, while integrating state management tools to improve data handling and enhance the user experience.

Tools: React ts/js, Redux Toolkit, Material UI, SASS, JIRA, Bitbucket, Gitlab.

Fullstack React / Node js Developer

Wind Consulting

11/2021 – 03/2023
Mahdia, Tunisia

- Front-end configuration, choosing key libraries like MobX, Redux toolkit for state management, forms handling, and translation...
- Converted client concepts into technical solutions using UML diagrams, streamlining development.
- Developed and maintained full-stack features using React js/ts, Next.js, and Express ts, improving functionality and performance.
- Optimized database performance with MySQL and MongoDB, ensuring data integrity and fast queries.

Tools: React, Next.js, Bootstrap, Material UI, Redux Toolkit, MobX, Express.js, MySQL, MongoDB, GitHub, UML, Scrumban.
